## An Economy Measure Paying Dividends To You and To Your Customers

### FARM EXPERTS SAY:

**"DUST SEED CORN WITH  
SEMESAN JR.  
TO REDUCE GROWING COST"**

Department of Agriculture and experiment station experts have proved that one of the surest ways to reduce corn costs is by seed treatment with Semesan Jr.

Applied as a dust, Semesan Jr. protects seed against rotting; increases germination; prevents seedling blight; controls root and

stalk rots. The result is more and better corn at less cost. In 6-year Iowa tests, dust treatment produced an average increase of 3.9 bushels an acre.

Semesan Jr. now costs less than 2½¢ an acre to use! Four-oz., 40c; 1-lb., \$1.50; 5-lbs., \$7.00.

Use New Improved Ceresan for wheat; Ceresan for oats, barley, sorghums and cotton; Improved Semesan Bel for potatoes; Semesan for vegetables and flowers.
